
Use of Undesignated Income Policy

Extraordinary income such as undesignated estate donations and sale of properties transferred from closed churches can, at the discretion of the District Superintendent, be set aside in a "Special Initiatives" account at the end of the year the income is received. The funds in the "Special Initiatives" account are to be kept available for allocation by the District Superintendent, in consultation with the District Lead Team, for ministry priorities established by the District Executive Committee (DEXCOM). The District Superintendent will regularly inform DEXCOM of the disposition of these funds.
