## Ordination Cohort Covenant

Recognizing that in the Christian & Missionary Alliance in Canada the process of ordination is a leadership development tool for all portable licensed workers who serve in a role which involves preaching and/or teaching theological and biblical truths, and

recognizing that participation in an ordination learning cohort facilitated by the Canadian Pacific District will strengthen that ordination process,

we covenant together in the full participation and completion of the ordination process as offered through the Canadian Pacific District of the C&MA, **including** the following:

- Completion of all reading, written, and oral assignments within program time frames
- Full participation in an ordination cohort and attendance at the four cohort retreats over a two year period
- Working with an ordination supervisor/coach
- Examination by the Ordination Committee
