

Decision Profile

District Representative to the Committee on General Assembly Committees

Decision Required:

Creation of a list of potential appointees to serve as the District Representative to the Committee on General Assembly Committees.

Why it's coming to DEXCOM:

DEXCOM must appoint this representative who works with the Committee on General Assembly Committees to appoint General Assembly delegates to General Assembly committees (i.e. Committee on Finance, Committee on General Legislation, Committee on Nominations, etc.).

Background:

The Policy on General Assembly of The Christian and Missionary Alliance state:

Article 4 – General Assembly Committees

4.2 The Committee on General Assembly Committees

This committee shall be composed as follows:

- a) One member appointed by the Board of Directors, who shall be the Chair,
- b) One international worker on regular home assignment, appointed by the Board of Directors,
- c) One member from each district of the C&MA, appointed by the respective District Executive Committee.

It is wise to appoint a person who is known for good judgment and who personally knows many licensed workers in the District in order to appoint them to various General Assembly committees. Age and tenure are beneficial for appointment to this committee, as this usually translates into a broader knowledge of district personnel. Fewer associate and ministry-specific pastors attend General Assembly than lead pastors, and this should be taken into consideration.

The following people have previously been appointed as representatives:

Mark Peters (2020)

Dave Driedger (2018)

Keith Whitaker (2016)

Leon Throness (2014)

Recommendation/Motion:

THAT DEXCOM create a list of people from the list of licensed workers (see TAB E.3.1) who would be approached in order of preference for appointment to the Committee on General Assembly Committees.
