
Loan Development Fund Policy

The purposes for the Loan Development Fund (ranked in order) are to:

1. Be a source of financing to Canadian Pacific District (CPD) churches that require funds for property and building acquisitions and property improvements.
2. Offer qualified investors an opportunity to place extra personal resources into effective ministry to the CPD family of churches, while at the same time receiving an attractive rate of interest on their funds.
3. Provide enough surplus resources, through careful management, to cover direct administration costs of the fund.
4. Help provide for other important ministry expenses and major capital expenditures of the CPD office.
