

Decision Profile

Closure of Mosaic Church

Decision Required:

Approval of the closure of Mosaic Church.

Why It's Coming to DEXCOM:

DEXCOM must approve all church closures and the associated transfer of any assets per the *Local Church Constitution*, Article 12.1.

Background:

Mosaic is a developing church that has been receiving subsidy from the CPD since 2016. At this point, the church is no longer sustainable, and Mosaic held a council meeting on September 11, 2023 and made the decision to close the church. The church has no licensed workers on staff and does not own any property.

The church notes that it intends to continue services until the end of October, which will allow it to close well and care for those in the community in a time of transition. Mosaic plans to retain their staff until the end of the calendar year to also enable follow up pastoral care and to complete the necessary administrative tasks. To facilitate this process, the CPD will continue its subsidy until December 31, 2023.

Silas Krabbe, the Mosaic Community Theologian and Coordinator, shared the following:

On behalf of Mosaic to the denomination I can only offer overwhelming gratitude for the many years of support Mosaic has received. It has allowed many lives to be changed and impacted for the better.

Recommendation:

THAT DEXCOM approve the closure of Mosaic Church effective December 31, 2023.
